PROFESSIONAL SUMMARY

Senior React Native developer with 4+ years of experience building Android and iOS apps for insurance, gaming, cabs, music and health. Passionate about turning ideas into real products and always learning new tools, I built a complete POS platform solo in 1.5 months and worked with the UAE PASS team on a full authentication flow. I take pride in shipping fast, reliable apps that people actually use.

TECHNICAL SKILLS

Mobile: React Native, Expo, Native Modules
Web: React.js, Next.js, Tailwind CSS
Tools & AI: ClickUp, Jira, Slack, VS Code, Xcode, Android Studio, AI-Assisted Development, Vibe Coding

Surat, India | Jul 2022 - Nov 2023

- Managed tasks for the mobile development team.
- Built tablet and TV responsive user experiences using flexible layouts and dynamic sizing.
  Projects: Japa Health, SMS Marketing App

KEY PROJECTS

ESANAD (Opash Software): Built the Android and iOS apps from scratch for esanad.com, an insurance platform covering health, motor and travel. Integrated health insurance premium matrix data via API scripting across plan tiers, network types and visa types. Website

POS & Business Management Platform (Opash Software): Solo-built the complete platform, frontend and backend, in 1.5 months. Expo/React Native app for branches, plus Next.js dashboards for platform owners and restaurant admins. Multi-tenant PostgreSQL backend with JWT auth and four user roles. Covers orders and KOT, menu, inventory, tables, GST billing, subscriptions and audit logs. Website

Bigwin Junction (Oceanmtech): Real-money games platform. Website

Qtah (Unikwork): Car modification parts supply app with three roles: user, supplier and driver. Dark and light modes, with Arabic and English localization. Play Store

That Guys Garage LLC (Unikwork): Performance-tracking app that records and displays your activity counts. Play Store

Meal Manage (Unikwork): Built both the parent app (pre-order meals, fund meal accounts, pay online, manage student allergies) and the school POS app (meal distribution and point-of-sale transactions) for a K-12 school meal platform. Play Store

Formly (Unikwork): Form builder app to create forms and surveys, edit them in real time with a live preview, and view and manage responses. Google sign-in and Google Drive integration. Play Store

Candor IVF (Unikwork): Patient app for Candor IVF, a fertility treatment hospital chain in Gujarat, where patients view their appointments and treatment details. Play Store

Sheihek (Ewings Infotech): Music player platform with player controller, queue management and repeat. Dark and light modes, and a local data store for favorite songs and user information.

Max Deal (Ewings Infotech): Hotel and hotel facility booking app. Play Store

Story Well (Ewings Infotech): Daily diary and daily news app. Play Store

Njoy Cab (Ewings Infotech): Cab booking app for outstation, airport, city and hourly rental rides, with wallet and e-payment options. Play Store

Japa Health (Webashlar): Health and meditation app for mind and body wellness. Built a video controller and a theme-based animation model. Connects doctors with registered users. Website

SMS Marketing App (Webashlar): App for sending and receiving text messages directly in-app. Built a native module for SMS, sending a message to 100+ contacts per second.
